

A Forest full of Cittern

In the "Thuringian Forest" the tradition of the "Waldzithern" is kept alive. The historical instruments shown here along with Martina Rosenberger, have been built and played in this region in former days. Connected to this historical background is the 3rd Waldzither-Conference, starting today, initiated by Martina Rosenberger. These days at Suhl specialists, musicians, luthiers and enthusiasts will meet. And the instruments will be seen in performance at a concert.
